

## **Progress Report #7**

### **Avena Bridge Repair and Certification Project**

**May 11, 2026**

On May 7, 2026, we heard from our consultant, Mark Braun and Associates (M,B,&A), that a purchase order/ contract had been issued for MB&A to do the above-mentioned work. The P.O includes an odd start time of April 28, 2026. Odd, because that start date is ten days before the PO was approved.

M,B,&A had fully executed the contract as of May 7. The contract is for \$11,135.00, and has a contract end date of June 30<sup>th</sup>, 2026.
